MANOHAR ERIKIPATI
Curriculum Vitae

Email : manoharuss@gmail.com
Work Portfolio : manoharuss.github.io

Github : github.com/manoharuss
LinkedIn : linkedin.com/in/manoharuss

Skills

- Code - PySpark, SQL, Python with Pandas and Matplotlib, Node.js, Matlab.
- Cloud - AWS platform with EMR, ECS, Lambda for compute. Data-warehousing with Athena, S3. Creating databases with DynamoDB, RDS.
- Orchestration - Apache Airflow, Dagster.io.
- Geospatial - Mapbox developer tools, Tippecanoe, GDAL, QGIS.
- Containerization - Docker.

Professional Experience

2019 – 2021 | **Data Engineer at Mapbox - Washington D.C.**
I've built ETL pipelines with Pyspark in the Geodata team. I was a core cartographer and developed 2 layers on Mapbox Streets production map.
I've built a Conflation engine for logically merging addresses to every building in the USA for the Mapbox production map and address search services.
I maintained and was on-call for ingestion system to deliver OSM data to internal customers at a 24hr interval.
I upgraded CI/CD environment from Python 3.5 to Python 3.7 for nearly 20 data pipelines.

2018 – 2019 | **Map Data Engineer at Mapbox - Bangalore**
I've built a data validation stack for OpenStreetMap to catch vandalism in daily updates as part of the Cartography team. The system protects Mapbox from ingesting geodata with graffitti, profanity and hate-speech. I achieved a 99.9% accuracy with my team.
I was on-call for resolving business critical map incidents and root-cause analysis for vandalism.
I documented my work in OpenStreetMap journals and presented at State of the Map conference held in Japan in 2018.

2016 – 2018 | **Data Analyst at Mapbox - Bangalore**
I started as a Map data analyst in the Mapbox data team. I wrote documentation for mapping and validation for the OpenStreetMap database.
I helped build OpenStreetMap Changeset analyser osmcha.mapbox.com and published the usage guide for it.
I was on-call for resolving map errors and vandalism in OpenStreetMap for Mapbox cartography team.
I participated in mapping for Humanitarian OpenStreetMap Team projects and presented Mapbox tools at FOSS4G Asia conference.

2012 | **Systems Engineer Trainee at Infosys - Mysore**
For a 4 month period, I was a trainee learning object oriented programming with Java at Infosys training center.

Academic Education

|	
2012 − 2015	**MSc in Geomatics Engineering, University of Stuttgart, Germany.**
2007 − 2011	Bachelors in GeoInformatics Engineering, Andhra University, India.

Languages

Telugu	Mother tongue
English	**Fluent**
German	Beginner (A2 2013)
Hindi	Fair

Courses

|	
Elective	Information and Contract Law, University of Stuttgart

Academic Projects

2015 — **Master thesis on Content based image retrieval methods - Comparison of color, texture, region and edge detection methods.**

(a) Principle image (b) 0.02 (c) 0.132 (d) 0.316

Refer to thesis report.

2014 — **Fieldwork to generate an Orthomosaic with aerial images acquired using an UAV.**

Refer to field report.

2013 — **Lab work to run a toy truck with a 3point controller around a predefined loop.**

Refer to lab report.

2011 — **Bachelor thesis on using Mathematical morphology for Rain gauge data for generating SKIZ maps and median maps.**

Refer to thesis report.
